

SUSTAINABILITY

PLAN ON A PAGE

dunedin
AIRPORT

PLANET

Reducing emissions, waste and our environmental impact

Net Zero airport operations by 2030 and support the decarbonisation of the aviation sector

Reduce waste to landfill throughout the airport terminal year on year

Reduce our own water consumption footprint and restore the natural environment

PEOPLE

Nurture a culture of trust, diversity, dignity and wellbeing

Support and improve the health and wellbeing of all Dunedin Airport Staff in a proactive and positive way by implementing our Wellbeing Strategy

Support the financial wellbeing of our staff by paying on or above the NZ Living Wage and achieve pay equity

Support our region to thrive by providing financial assistance and volunteer time to community groups and charities in the Otago region.

COMMUNITY & PARTNERSHIPS

Connect our place to more people in the best way every day and be an enabler of the regional economy and distinct local culture.

Collaborate with our Airport retailers, tenants and suppliers to achieve sustainability objectives

We strive to contribute to the growth of the local economy by fostering partnerships with a variety of businesses, specifically those owned by individuals from diverse backgrounds and other underrepresented groups.

Promote and grow visitors to the Dunedin and Otago region in a way that protects and enhances the environment, our place and distinct local culture through sustainable travel planning
